Dear Parents and Friends

St Francis Xavier looks at developing opportunities for all children to flourish. Providing an inclusive and diverse range of learning opportunities ensures, like our vision states, students are provided an education that empowers all to become life-long learners.

Some of these recent opportunities provided by the school include:

Senior Football & Netball Carnivals
Kindy & PP Art Show

Congratulations to everyone for raising $1952 for Bishop Justin’s Communion Appeal. A fantastic effort.

Dress the Bishop Competition for Communion Week
Thanks to all parents who supported and attended these events. We look forward to providing an engaging curriculum that provides opportunities for all children to learn and succeed.
God Bless
Ben Doyle
Principal
As part of our Maths investigation and literacy focus, exploring Australian literature, the Pre-primary classes took part in an excursion to the Greenough Wildlife Park.

Our class then wrote a recount and sequenced pictures about the day.

We got off the bus. Michelle the Animal Keeper, gave us our instructions in the cave, then we got a bag of food for the animals. We walked around and fed the animals. We had to stay with our group. We had morning tea and then went back to the cave. Then Michelle showed us her pets. We touched the blue tongue lizard, the snake and a baby joey. Some of us even got to see a baby possum!

Thank you to the Greenough Wildlife Park and our parent helpers, we had a great day!

In the cave, holding the snake.
