

St Francis Xavier Primary School

Geraldton Western Australia 6530

24 October 2025

Dear Parents and Caregivers,

I am writing to advise that St Francis Xavier Primary School will not have Bambi operating onsite from 31/1/2026.

This difficult decision has been made in response to a significant increase in student enrolments for 2026 and the resulting need for additional learning spaces. The area currently occupied by Bambi will be required to accommodate these changes next year and as part of our longer-term planning for the school. This direction has been made following consultation and advice from Catholic Education Western Australia (CEWA).

We truly value the wonderful working relationship we have enjoyed with Bambi over the years. Their professionalism, care for our students, and the positive way they have operated within our school community has been greatly appreciated.

As we look ahead to 2026, SFX are committed to supporting families who will continue to access Bambi's services elsewhere. We will plan for and support appropriate drop-off and pick-up procedures for St Francis Xavier students using Bambi, and we will fully liaise with Bambi's team to ensure these organisational aspects are smooth, safe, and well-coordinated.

We recognise the important service Bambi has provided to many of our families and deeply value the partnership that has existed between Bambi and St Francis Xavier.

Should you wish to discuss transition arrangements further, please don't hesitate to contact me.

Kind regards,

Justine Smith
Principal
